BACKEND DEVELOPER (NODEJS, NESTJS) | FULLSTACK

I'm 21 years old and passionate about programming. I enjoy practicing jiu-jitsu and have plans to take up Brazilian Jiu-Jitsu (BJJ). In my free time, I love going for evening walks, traveling, and playing computer games.

WORK EXPERIENCE

Back-end developer (NodeJS) | Cleveroad   Jun 2023 - present

- For more than a year I worked on a huge project in a large team with the Healthcare industry, where the main tasks were related to NodeJS, MySQL, AWS, MongoDB, Redis technologies + creating APIs for WEB and Mobile (due to offline-mode there were many differences from regular APIs for WEB)
- Had the opportunity to be one of the developers on a project where the backend was written in NestJS with serverless architecture (AWS Lambda), also the main technologies were: NestJS, AWS (Lambda, SNS, SES, S3), Redis, MySQL
